8+ Years Experience | **30+ Projects Delivered** | **8+ Published Apps** | **100K+ App Downloads** | **Led 4+ Developers** | **Android • iOS • Web • Desktop**

PROFESSIONAL SUMMARY

Tech Lead, project mentor and senior full-stack developer with 8+ years of experience designing, building and shipping software for businesses. I build websites and web apps (Next.js, React, Vue.js), backends in Node.js and Python, native and cross-platform Android & iOS apps, desktop applications, AI automation and AI image-generation software, Shopify apps, and business systems such as CRM and payroll management. Shipped 30+ projects including Magicrete BuildMart (100K+ Google Play downloads) and LIVING (Godrej Living); currently Tech Lead for Shoppozone, a B2B wholesale commerce website and mobile app. Lead and mentor a team of 4 developers with Clean Architecture, code reviews, CI/CD (GitHub Actions, Fastlane) and weekly client demos. Available for freelance projects, dedicated monthly engagements and tech-lead consulting.

CORE TECHNICAL SKILLS

Web & Backend

Next.js | React | Vue.js | Node.js | Python | TypeScript | SEO

Mobile & Desktop

Android Native (Kotlin / Java) | iOS Native (Swift) | **Flutter** | Desktop Apps (Windows / macOS)

AI & Automation

AI Automation Software | AI Image Generation | OpenAI / Claude / Gemini | Python Automation

Business Software

Shopify Apps | CRM Development | Payroll Management | HRMS / ERP Integration

Flutter & Dart

Flutter | **Dart** | **Cross-Platform Development** | Android | iOS | Java

Architecture & State

Mobile Application Architecture | **Clean Architecture** | **BLoC** | **Provider** | Riverpod | Data Structures | Algorithms

APIs & Networking

REST APIs | **JSON** | WebSocket | **API Integration**

AI & Intelligent Integrations

AI-Assisted Development | AI API Integration | OpenAI | Gemini | OCR

Security & Payments

Mobile Application Security | Biometric Authentication | Payment Gateway Integration | Razorpay | Apple Pay

Cloud & CI/CD

Firebase | Google Cloud | **Git** | GitHub Actions | Fastlane

WORK EXPERIENCE

Cirkle Studio

August 2025 – Present

Tech Lead, Project Mentor & Senior Developer

Digital Product Studio · Surat, India

- Tech Lead for Shoppozone — B2B wholesale commerce website + Android & iOS app (Flutter, GetX, PHP/MySQL API), from architecture to Play Store readiness.
- Lead architecture and full-stack development of enterprise cross-platform applications using Clean Architecture and MVVM patterns across Android, iOS, Web, and Desktop.
- Mentor a team of 4 Flutter developers, conduct systematic code reviews, and built a reusable component library shared across 5+ active projects.
- Reduced app startup time by 45% through lazy initialization, deferred loading, and widget tree optimization.
- Implemented GitHub Actions + Fastlane CI/CD pipelines, reducing deployment cycles by 60% — from manual steps to fully automated builds and store submissions.
- Own Firebase, REST API, and third-party SDK integrations; facilitate Agile sprint planning and client stakeholder demos.

Stack: Next.js, Node.js, Flutter, Dart, Firebase, GitHub Actions, Fastlane, Clean Architecture, BLoC

Instance IT Solutions

June 2024 – August 2025

Flutter Developer

Enterprise Software Company · Surat, India

- Engineered Magicrete BuildMart — a pan-India construction materials marketplace that reached 100K+ downloads on Google Play, with an offline-first SQLite architecture for low-connectivity construction zones.
- Shipped 6 production apps to Play Store and App Store: ZingHR Onboarding, DG Ferry Agent Booking Platform, DG Sea Connect, Magicrete Sarthak, Pulpit Mobility, and SAH INVESTMENT.
- Integrated 3+ enterprise ERP and CRM systems end-to-end, including custom background sync and delta-update logic.
- Reduced REST API data consumption by 40% through response caching, pagination, and request deduplication.
- Built WebSocket-based real-time ride tracking and Razorpay/Stripe payment integrations for Pulpit Mobility.

Stack: Flutter, Dart, REST API, ERP Integration, SQLite, Offline Sync, Fastlane, Payment Gateways, WebSocket, Firebase

Webito Infotech

June 2022 – June 2024

Flutter Developer

IT Solutions Provider · Surat, India

- Delivered 10+ cross-platform mobile apps across recruitment, real estate, e-commerce, and enterprise service domains.
- Architected MyRCloud Recruitment Platform — a multi-platform ecosystem (Android, iOS, Web) serving 5K+ candidates with HRMS integration, WebSocket notifications, and role-based access control.
- Reduced crash rate by 85% across the app portfolio through Crashlytics monitoring, structured error handling, and systematic QA processes.
- Built production applications with Provider, BLoC, and Riverpod; integrated GraphQL APIs for property management and real-time data-heavy platforms.

Stack: Flutter, Dart, GraphQL, REST API, Provider, BLoC, Riverpod, Firebase, Flutter Web

PROJECTS

★ FEATURED PROJECTS

Shoppozone (Current)

Ongoing · Tech Lead · Web + Android + iOS

B2B Wholesale Commerce Website & Mobile App · shoppozonewholesale.com

Wholesale platform for retailers and resellers: tiered pricing & MOQ, “Make a Deal” bulk price negotiation, multi-store support, scheduled delivery, GST-ready PDF tax invoices with QR, order tracking and email / mobile-OTP login. Website live; Android app built for Target SDK 36 with 197 automated tests passing.

Stack: Flutter, GetX, Clean Architecture, Dio, PHP, MySQL, REST API, Firebase Cloud Messaging, Crashlytics

Magicrete BuildMart

10 months · Senior Flutter Developer · Play Store & App Store

Digital Construction Marketplace · 100K+ Downloads · Offline-First

Pan-India dealer/distributor marketplace with SQLite offline-first architecture, background ERP sync, and delta-update strategies for low-connectivity construction zones. Scaled to 100K+ Google Play downloads.

Stack: Flutter, REST API, ERP Integration, SQLite, Offline Sync, Push Notifications

Pulpit Mobility

6 months · Lead Flutter Developer · Play Store · 5+ Cities

Enterprise Transportation Platform · Real-Time WebSocket Tracking

Real-time ride booking with WebSocket live driver tracking, Google Maps geofencing, offline-resilient architecture, and multi-gateway payment processing across 5+ cities.

Stack: Flutter, Firebase, Google Maps, WebSocket, Payment Gateway, BLoC

MyRCloud Recruitment Platform

8 months · Lead Flutter Developer · Android, iOS, Web

Multi-Platform HR Ecosystem · 5K+ Candidates · 85% Shared Code

True cross-platform recruitment ecosystem with HRMS integration, WebSocket real-time notifications, and role-based access control across Android, iOS, and Flutter Web from a single codebase.

Stack: Flutter, Flutter Web, REST API, WebSocket, HRMS, RBAC

LIVING (Godrej Living — Real Estate Project)

8 months · Lead Flutter Developer · Android, iOS, Web

Enterprise Real Estate & Community Platform · Operational Efficiency +60%

End-to-end real estate and gated community management platform with QR visitor verification, gate security, maintenance requests, and real-time notifications for enterprise property management.

Stack: Flutter, Node.js, REST API, QR Verification, Push Notifications, BLoC

📩 MORE PROJECTS

ZingHR Onboarding (Enterprise HR · 1,000+ Users · Play Store & App Store)

NCH Enterprise Solution (Multi-Branch Business Software · Web, Desktop)

SAH INVESTMENT (Financial Management · Android, iOS)

Magicrete Sarthak (Employee Engagement · +35% Engagement)

DG Ferry Agent Booking Platform (Maritime · Offline-First · Play Store & App Store)

DG Sea Connect (Maritime Enterprise Workflow · Secure)

Manier De Voir (Premium Fashion E-Commerce · 4.5★ Rating)

YONETI (Shop Management · Dual-Role Platform)

PROFESSIONAL HIGHLIGHTS

- **100K+ Downloads:** Magicrete BuildMart reached 100K+ Play Store downloads with an offline-first SQLite architecture serving pan-India construction operations.
- **8+ Published Apps:** Deployed 8+ applications on Play Store and App Store across transportation, construction, maritime, HR, and fashion verticals.
- **CI/CD Automation:** Implemented GitHub Actions + Fastlane pipelines achieving a 60% reduction in deployment cycles across multiple simultaneous projects.
- **Cross-Platform:** Delivered production-grade applications across Android, iOS, Flutter Web, and Windows Desktop from a single Dart codebase.
- **AI Integrations:** Integrated OpenAI, Gemini, and Claude APIs into production workflows; built OCR, voice assistant, and face verification modules.

EDUCATION

Bachelor of Computer Applications (BCA)

2015 – 2018

Veer Narmad South Gujarat University · Surat, Gujarat

ADDITIONAL EXPERIENCE

7 Star Infotech — Android Developer

August 2018 – February 2019

- Built 3+ native Android applications from scratch using Java and Kotlin, covering REST API integration and custom XML UI layouts.
